Dear Colleagues,

Thank you for your willingness to serve on the Technology Services Rate Review Committee. I am pleased that Sharee Robinson has agreed to serve as chair. The main purpose of the committee is to review a subset of service rates charged by Technology Services and make recommendations to the Provost on the FY2019 rate calculations. This will include analyzing the components that affect rate generation. The work of the committee should be completed by March 1, 2018.

Jane Baumgartner will coordinate the meetings and provide administrative support. Thanks again for your willingness to serve on this committee and assist the campus in this important initiative.

Sincerely,
