Student Assistance Center

The Student Assistance Center serves as the first point of contact for students who call, email, or walk in to the Office of the Dean of Students. Our Assistant Deans help students understand university policies and procedures, educate them about and connect them to campus and community resources, and support students in crisis.

Students visit us regarding a broad range of issues which may be impacting their academic performance including those related to health/mental health, course attendance issues, questions about where to go on campus and off to seek different services, options for withdrawing from the university, or because they need help and just aren’t sure where to go. We help students find their way!

Emergency Dean Program & Emergency Dean Fund

One of the resources the University makes available to students is the support and guidance of a University administrator who is on call and can be reached when University offices are closed. The Emergency Dean supports students who are experiencing health or safety emergency situations in which an immediate University response is needed and which cannot wait until the next business day. The Emergency Dean is not a substitute for trained emergency personnel such as 911, police, or fire professionals.

The Emergency Dean Fund is made possible by generous donations and offers very limited financial assistance to enrolled, degree-seeking students. The fund is available to provide one-time financial assistance per academic year to students who are unable to meet immediate, essential expenses because of a temporary hardship related to an emergency, such as an accident, illness, natural disaster, recent job loss, or other unforeseen circumstance.
Expressive Activity on Campus

• Our Campus Administrative Manual has a policy on Expressive Activity on Campus
• As a public institution, our students retain their Constitutional rights
• As a public institution, demonstrations and protests are expressions of free speech, with the university’s ability to restrict them very narrowly tailored.
• Faculty have the right of academic freedom to teach their classes as they generally deem appropriate
